

The following message is from the Covid Response Team:

Beginning in the new year, the Covid Response Team has decided to cautiously move from a MASK MANDATORY to a MASK STRONGLY ENCOURAGED policy for St Andrew's Church building.

We recognize it is not possible to have a policy that will meet everyone at their level of comfort. Some struggle with wearing masks and some struggle with not wearing masks for various reasons. But there are still measures we can all take to keep everyone safe. It is important we follow these measures as this winter is predicted to be particularly bad.

Please practice social distance unless both parties indicate they are comfortable with closer contact. Choose to sit in the Sanctuary where you are most comfortable. There are sections set up with extra distance between the chairs and sections where the chairs are closer together.
